

CONTINUING MEDICAL EDUCATION

PSYCH ADVICE FOR THE PEDIATRIC PRIMARY CARE PROVIDER

Course Director: Mili Khandheria, M.D.

Psych Advice for the Pediatric Primary Care Provider aims increase children’s access to mental health care by increasing primary care providers’ knowledge and comfort in managing behavioral health concerns.

This series will increase children’s access to mental health care by increasing primary care providers’ knowledge and comfort in managing behavioral health concerns. Pediatricians and their medical team will learn ways to assess and make simple diagnoses for common behavior/mental health concerns in children and adolescents. Tools learned in this educational series will lessen referrals to mental health practitioners for simple behavioral concerns and decrease the frequency of Emergency Department referrals.

DATE	TOPIC	SPEAKER
03/08/2023	Pediatric Bipolar Disorder	Andrew Diederich, MD

- Explain the importance of diagnostic struggles in pediatric bipolar disorder.
- Explain the medications commonly used in pediatric bipolar disorder.
