| | | | HRIs can email tcmhcc@utystem.edu with questions about program administration if they are unsure who to contact. |
|---|---|---|---|
| 3.3 Access and Dissemination | If an HRI wants to share its dashboards, reports, or any related data outside of the HRI, the HRI must submit a request to UT System per the TCMHCC Communications Policy for a communications and programmatic review. | Does "outside of the HRI" include contracted partners or CPWE sites? | Change made.<br><br>If an HRI wants to share its dashboards, reports, or any related data outside of the HRI, the HRI must submit a request to UT System per the TCMHCC Communications Policy for a communications and programmatic review. HRIs may share data with their subcontracted partners and CPWE sites. |
| 3.3 Access and Dissemination<br><br>3.3.2 QI Performance Dashboards<br><br>4. Definitions | Each HRI's designated individuals with access to the dashboards will disseminate the information with their leadership and operational staff to identify opportunities to improve access, quality, and cost-effectiveness of their services.<br><br>Access: The ability to directly view and retrieve data/information from data dashboards and other data reports. | There may be some clarification on the definition of "access" as the word is used multiple ways in the policy. | Changes made.<br><br>3.3 Access to and Dissemination of Data<br><br>Each HRI's designated individuals with access to the dashboards will disseminate the information with their leadership and operational staff to identify opportunities to improve access to care, quality, and cost-effectiveness of their services.<br><br>Access to Care: The ability to obtain mental healthcare services when needed.<br><br>Access to Data: The ability to directly view and retrieve data/information from data dashboards and other data reports. |
| 4. Definitions<br><br>5. Other Resources | Centralized Operational Support Hub (COSH): A team that centrally manages the operations of the CPAN and TCHATT programs, engaging regularly with HRIs to resolve issues, identify program efficiencies, and provide clinical expertise. | Does COSH play a role in data review? | Change made.<br>COSH definition remains as-is; Program Medical Director definition was revised. The Data Dissemination and Publication Committee also plays a role in review of Consortium data. The committee's charter, which includes specifics about the committee's charge and membership, is expected to be finalized with a vote from the EC |
