

Pediatric Mental Health Care Access

Collaborations and TCHAT Deep Dive

Dr. David Farmer PhD, LPC, LMFT, FNAP

Teneisha Kennard, LMSW

Dr. Molly Lopez, PhD

Laura Swartzendruber BSN, RN

Statement of Work

The PMHCA Advisory Council brings together participants from community agencies to deepen understanding of each organization's role in providing pediatric services. Through collaboration, resource sharing, minimizing service duplication, and identification of service gaps, the council works to expand access to pediatric mental health care access across North Texas using sustainable and replicable partnerships and models.

The council also helps define the region's vision for pediatric mental health care access and provides leadership in leveraging community strengths and resources to achieve that vision. Its cross-sector approach emphasizes strategies that support children and families within their natural environments—including childcare settings, schools, homes, community spaces, and healthcare systems.
